VIP PROformance with HPE LoadRunner

DELIVERING AFFORDABLE, FIXED-PRICE PERFORMANCE TESTING

Don't Risk Going Live Before You Test Performance

Gain a clear view of how an application will perform under specific loads before you release it to production. Since 1996, Visionary Integration Professionals (VIP) has delivered over 500 performance monitoring and testing solutions that reduce risk, protect production revenue, and ensure that applications fulfill service-level agreements.

Trust VIP to Deliver Skilled Performance Testing at a Fixed Price

The VIP PROformance service includes HPE LoadRunner, hardware, hosted Internet or on-premises load generation, and our ability to architect advanced performance tests. This packaged solution helps any business test or fine-tune an application in its environment, without investing in dedicated staff and tools, or tying up internal resources.

Powered by HPE LoadRunner, VIP PROformance supports a wide variety of application architectures and processes. It is ideal for testing:

- ERP and CRM packaged software: SAP, Oracle, Infor/Lawson, Epicor
- Custom Java, .Net-based, and Web 2.0 applications
- E-commerce and legacy platforms
- Cloud-based and on-premises applications
- Mobile applications

Benefits for Your Company

VIP PROformance does more than provide detailed insight into your system's performance under your load. You also get:

- Iterative testing to help verify proper configuration
- Expert advice on placing monitors to locate and resolve bottlenecks in application configuration, network, database, and hardware
- Fixed price and affordable with the best tools and customized scripts
- Fixed duration - our clients do not fall into the black hole of endless testing

**VISIONARY
INTEGRATION
PROFESSIONALS**

- Externally hosted load testing with the VIP load generation farm
- Security - test data remains inside your firewall and only monitoring statistics are transferred securely to VIP for correlation and analysis

HPE LoadRunner + VIP's Testing Expertise = A Full Testing Solution at a Fixed Cost

Avoid the initial and ongoing costs of purchasing expensive performance testing licenses. With VIP PROformance, you get the full benefit of HPE LoadRunner for the duration of the engagement without paying for perpetual licenses and support and maintenance fees. You also get our expert performance engineers who design and run custom test scripts.

Included:

1. *VIP expertise to scope and plan performance tests and develop custom scripts*
2. *VIP expertise to schedule and conduct testing and analyze performance test results, including off-hours execution as required*
3. *Use of HPE LoadRunner and all necessary performance monitors*
4. *VIP hardware to develop scripts and host the external load generation*
5. *Mobile load generation (optional)*
6. *Remote test administration*
7. *Comprehensive final performance report, including key findings and analysis of performance results*
